Simmons First National Corporation Reports Fourth Quarter 2023 Results

Board of Directors authorizes new \$175 million share repurchase program and approves a 5 percent increase in the quarterly cash dividend

PINE BLUFF, Ark., Jan. 24, 2024 /PRNewswire/ -- Bob Fehlman, Simmons' Chief Executive Officer, commented on fourth quarter 2023 results:

Overall, we were encouraged by the underlying trends experienced during the quarter, as well as the strategic decision we made to selectively sell certain lower yielding bonds in our securities portfolio given advantageous market conditions. Both net interest income and net interest margin were up on a linked quarter basis, reflecting our focus on maintaining strong loan and deposit pricing discipline. Equally important, deposit growth was driven by an increase in customer deposits – primarily money market and savings accounts

A strong risk profile has always been a key attribute of Simmons and our results for the quarter continue to bear this out. Net charge-offs for the quarter were 11 basis points and our allowance for credit losses on loans to total loans ended the quarter at 1.34 percent as provision expense exceeded net charge-offs. Expense growth, other than the impact of a FDIC special assessment, was also well contained and reflected the success of our Better Bank Initiative.

As we enter 2024 against a backdrop of economic uncertainty, we believe certain strategic actions we have taken this past year position us well to take advantage of opportunities and meet the challenges ahead.

Simmons First National Corporation (NASDAQ: SFNC) (Simmons or Company) today reported net income of \$23.9 million for the fourth quarter of 2023, compared to \$47.2 million in the third quarter of 2023 and \$83.3 million in the fourth quarter of 2022. Diluted earnings per share were \$0.19 for the fourth quarter of 2023, compared to \$0.37 per share in the third quarter of 2023 and \$0.65 per share in the fourth quarter of 2022. Adjusted earnings 1 for the fourth quarter of 2023 were \$50.2 million, compared to \$48.8 million in the third quarter of 2023 and \$81.1 million in the fourth quarter of 2022. Adjusted diluted earnings per share 1 for the fourth quarter of 2023 were \$0.40, compared to \$0.39 in the third quarter of 2023 and \$0.64 in the fourth quarter of 2022.

During the fourth quarter of 2023, we executed a strategic decision to sell approximately \$241 million of low yield available-for-sale (AFS) investment securities, resulting in a pretax loss of approximately \$20.2 million. The proceeds from the sale were used to pay off higher rate wholesale fundings, including both brokered deposits and FHLB advances. The earn back period of this initiative is estimated at approximately 2.5 years. In addition, during the quarter we also recorded \$10.5 million of noninterest expense for a FDIC special assessment levied to support the Deposit Insurance Fund following the failure of certain banks in 2023. The table below summarizes the impact of these items, along with the impact of other items, consisting primarily of branch right sizing and early retirement program, and they are also described in further detail in the "Reconciliation of Non-GAAP Financial Measures" tables contained in this press release.

With the 2022 Program set to terminate on January 31, 2024, the Company also announced today that its Board of Directors has authorized a new stock repurchase program (New Program) under which the Company may repurchase up to \$175,000,000 of its Class A common stock currently issued and outstanding. The New Program replaces the 2022 Program.

Under the New Program, the Company may repurchase shares of its common stock through open market and privately negotiated transactions or otherwise. The timing, pricing, and amount of any repurchases under the New Program will be determined by the Company's management at its discretion based on a variety of factors, including, but not limited to, trading volume and market price of the Company's common stock, corporate considerations, the Company's working capital and investment requirements, general market and economic conditions, and legal requirements. The New Program does not obligate the Company to repurchase any common stock and may be modified, discontinued, or suspended at any time without prior notice. The Company anticipates funding for the New Program to come from available sources of liquidity, including cash on hand and future cash flow. The New Program will terminate on January 31, 2026 (unless terminated sooner).

Non-GAAP Financial Measures

This press release contains financial information determined by methods other than in accordance with U.S. generally accepted accounting principles (GAAP). The Company's management uses these non-GAAP financial measures in their analysis of the Company's performance. These measures adjust GAAP performance measures to, among other things, include the tax benefit associated with revenue items that are tax-exempt, as well as exclude from net income (including on a per share diluted basis), pre-trax, pre-provision earnings, net charge-offs, income available to common shareholders, non-interest income, and non-interest expense certain income and expense items attributable to, for example, merger activity (primarily including merger-related expenses and Day 2 CECL provisions), gains and/or losses on sale of branches, net branch right-sizing initiatives, loss on redemption of trust preferred securities, gain on sale of intellectual property. FDIC special assessment charges and gain/loss on the sale of AFS investment securities. The Company has updated its calculation of certain non-GAAP financial measures to exclude the impact of gains or losses on the sale of AFS investment securities in light of the impact of the Company's strategic AFS investment securities transactions during the fourth quarter of 2023 and has presented past periods on a comparable basis.

In addition, the Company also presents certain figures based on tangible common stockholders' equity, tangible assets and tangible book value, which exclude goodwill and other intangible assets. The Company further presents certain figures that are exclusive of the impact of deposits and/or loans acquired through acquisitions, mortgage warehouse loans, and/or energy loans, or gains and/or losses on the sale of securities. The Company's management believes that these non-GAAP financial measures are useful to investors because they, among other things, present the results of the Company's ongoing operations without the effect of mergers or other items not central to the Company's ongoing business, as well as normalize for tax effects and certain other effects. Management, therefore, believes presentations of these non-GAAP financial measures provide useful supplemental information that is essential to a proper understanding of the operating results of the Company's ongoing businesses, and management uses these non-GAAP financial measures to assess the performance of the Company's ongoing businesses as related to prior financial periods. These non-GAAP disclosures should not be viewed as a substitute for operating results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. Where non-GAAP financial measures are used, the comparable GAAP financial measure, can be found in the tables of this release
